

New York State Conservation Council
ADVOCATING FOR CONSERVATION AND THE SPORTING COMMUNITY SINCE 1933

Gazzola v. Hochul

Update from Paloma:

"Our motion is the most comprehensive and up-to-the-minute information available. Situation is dynamic and devolving. Doing everything we can to try to hold the line for our beloved Second Amendment and our FFLs." Use the link below to see the emergency motion that has been filed.

At the Fall Convention Paloma Capanna, the attorney representing Gazzola in *Gazzola v. Hochul*, discussed the new laws for FFL's in New York that they are trying to fight.

With this fight they ask for participation in their "Strike & Shoot", see below:

"On Wednesday, September 13, 2023, federally-licensed dealers in firearms in New York will be closed for business because they will be on strike. The Second Amendment "to keep" - of "to keep and bear arms" - will go dark. Without dealers, there will be nothing for you "to keep." No firearms. No ammunition. We're doing it to raise public awareness of unjust laws passed summer 2022, which dealers are fighting in federal court. On July 25, 2023, the New York State Police "Joint Terrorism Taskforce" started enforcing of those laws against dealers without notification to anyone. On September 13, 2023, the NYSP will attempt to launch its new firearms and ammunition background checks and it will start the build of the first-ever in U.S. history single database of gun owners.

At noon on September 13, we're asking you to stand in solidarity with dealers fighting for your Second Amendment rights, your privacy, your *Heller-McDonald-NYSRPA v. Bruen*. Will you please go to your local rod & gun club, your local range, your local sportsmen's association property, and fire a round. Make this the "Shot Heard 'Round the State II." We did this ten years ago after the "SAFE Act." We need to do it again."

For more information regarding the case, and Strike & Shoot, please use the link below to visit their website.
