* Raffle ticket cost is based on a drawing at both the May and June meetings.

**Deposit for work hours is based on the billing cycle and prorated dues. The deposit will be returned when the member completes his/her required number of hours per the above schedule. These hours must be completed by the July 15th following the member's admission. Once those work hours have been completed, the member must contact the Treasurer for a refund of their work hour deposit. The Treasurer will confirm the work hour completion with the Financial Secretary. If the hours are not completed by July 15th, the club will retain the portion of the deposit not worked and log it as “fines for work hours”.

At membership renewal in August, the member will be billed for next years dues. He/she will then have until the following July 15th to complete their 10 work hour requirement for the new billing year. All work hours must be reported on the log sheet on the club bulletin board to be valid.
